

**Name:** Francisca Soares

**Age:** 49 years old

**Position:** Teacher

**Teaching subjects:** Portuguese and English

**Pupils, grade and number of pupils in the class:** I teach English to class 5D. There are 21 pupils, aged 10 to 12, 14 girls and 7 boys.

**Interests:** My main interests are reading, going to the cinema, learning and experiencing new things. I am especially interested in everything that is connected with the introduction of ICT in education. I also like walking on the beach, and...travelling...

**Reason for participating in this project:**

The Tell me more! project is a "2<sup>nd</sup> round" from a previous project, called Tell me!, where 3 of the current partners were involved (Italy, Norway and Portugal). So this project means to me, on the one hand, meeting old friends again and, on the other hand, getting to know new friends. All together we will try to go a step further on what we accomplished together a couple of years ago.

I also want my students to get involved in a transnational project supported by the use of ICT. In my opinion the Tell me more! project will give them the opportunity to share and discuss ideas with friends in different countries in Europe.

For us teachers, transnational projects are always a good opportunity to learn with our partners and to share methodologies and ways of teaching.
