# Juletræspynt

Mange fælder selv sit juletræ og andre køber det fældet.

Man tager det med hjem og nogen sætter det ud i haven, mens andre tager det ind i stuen og pynter det med julehjerter, glaskugler, stjerner og kræmmerhuse med pebernødder i.

Juleaften danser man rundt om træet, imens man synger julesange.

Man pakker gaver op, som ligger under juletræet, efter at man har sunget

# The Christmas trees history

A lot of people chop down trees themselves, but some buy it chopped down.

They bring it home, and some people place it in the garden, others in the living room and put stuff like Christmas hearts, glass balls and stars on it. Christmas Eve you dance around it while you sing songs, and when you are done you get gifts, that lie under the tree.

# Juletræets Historie

Danmark fik juletraditionen via de dansk-tysk familier. I København så man træet første gang i 1811 hos familien Lehmann i Nykongens gade, og det vakte så stor opsigt, at de nysgerrige satte stiger op til vinduerne for rigtigt at kunne se, men det blev anset af mange som et tosset påfund.

## The Christmas tree's history

Denmark got that Christmas tradition from the Danish- German families. In Copenhagen the tree was first seen in the Lehmann's families residence in Nykongens street, and a lot of people noticed it, it was quite a sensation, some of the really curios placed ladders on the families windows, so they could get a better look at it.

But most people just thought it was some crazy and stupid thing.
